

I, _____, am a member of the RPI Players who currently has voting rights. I standby this absentee ballot and agree that I made these decisions with a sound mind.

This ballot works as an instant run off ballot. The Elections Chair releases all candidates that have been nominated. Please write the names of your preferred candidates in numeric order, with "1" being your most preferred. If you do not believe that any candidates or any candidate after a certain point are viable for the position nominated then you can write NO CONFIDENCE. If no candidate receives a majority or No Confidence is the largest vote then nominations will be taken from the floor and the election for that position will start. You will not be able to resubmit a new absentee ballot. You may write in the names of individuals who have not accepted a nomination or who have not been nominated yet. If they do not accept their nominations or are not nominated your vote for that individual will not be counted and your vote will be scaled accordingly.

Any questions should be directed towards the elections chair.
